

HOUSE OF COMPLIANCE OR HOUSE OF CARDS? MAKE THE RIGHT CHOICE.

POST-MARKET SURVEILLANCE is increasing, and so are fines for non-compliance with GMP standards. Can your manufacturing solutions stand up to these pressures?

Everywhere you look, manufacturing point solutions abound, and the industry is crying out for an enterprise device intelligence and compliance system. For over 20 years, BrooksSoftware has been a worldwide leader in manufacturing execution systems, quality management and GMP compliance solutions. Our MEDIC™ Suite is a complete manufacturing, regulatory process management and compliance system, combining the products, technology and analysis tools you need to drive GMP compliance. And with thousands of mission-critical deployments in the most demanding manufacturing environments, our global services and support teams have the expertise and experience to get MEDIC up and running quickly and successfully.

Don't just put another band-aid on the problem. Rely on BrooksSoftware to help build your House of Compliance. Visit us at <http://lifesciences.brookssoftware.com>, or call us at 978-262-2400
