

Keeping You on Safe Footing

How Can You Avoid a Medication Misstep in the Pharmacy?

The medication use process is one of the most difficult to manage. But there's no better medication safety partner than McKesson. We'll collaborate with you every step of the way, using our pioneering experience in bar-code scanning and pharmacy robotics. With the McKesson Medication Safety AdvantageSM, each step you take will be smooth and safe.

Let's Get Moving.

Starting a medication safety program can be daunting, but can yield enormous benefits for patients and clinical staff. At McKesson, we have a number of solutions to get you moving in the right direction. For example, the McKesson QuickStart Program is a fast, easy and smart way to give your clinicians the tools they need — in six months from kickoff to go-live — to significantly reduce medication errors.

Learn more about our comprehensive medication safety offerings and the McKesson QuickStart Program at www.mcksafe.com. Or call us today at 866-McK-SAFE (866-625-7233).

MCKESSON
Empowering Healthcare

“McKesson’s medication safety solutions helped free our pharmacists to take a more active role in clinical care, where they can have the greatest impact on patient safety.”

Tim Hipp, R.Ph., Pharmacy Systems Manager
Anderson Area Medical Center, Anderson, S.C.
