

# Keeping You in Safe Waters

## How Can You Protect Nurses and Patients Against Medication Errors?

Like water wings support a child taking her first strokes, you want your medication safety strategy to protect patients and nurses from errors. The McKesson Medication Safety Advantage<sup>SM</sup> provides that safety net at every step of the medication use process. From bar-coded medication administration to full electronic documentation, our comprehensive solution reduces the demands on nurses so they can provide safer, more efficient care.

**Take the Plunge.** The McKesson QuickStart Program makes it easy for you to launch a medication safety strategy and see results fast. In six months from kickoff to go-live, your nurses can have the tools they need to help ensure that the *right* patient gets the *right* medication in the *right* dose via the *right* route at the *right* time.

Find out how the McKesson QuickStart Program can be the first step in a comprehensive medication safety strategy. Visit us at [www.mcksafe.com](http://www.mcksafe.com) or call us at 866-McK-SAFE (866-625-7233).

Learn more about the McKesson Medication Safety Advantage in Booth #832 at the AONE 38<sup>th</sup> Annual Meeting and Exposition in Chicago, April 15 -19.
